

Logan Park High School Strategic Vision 2025

Mana Motuhake

Strengthen students' sense of their own identities within our kura, with a particular focus on Māori succeeding as Māori.

Support students to explore, understand and value themselves in terms of whakapapa, race, religion, language, gender, neurodiversity, values and aspirations within a climate that celebrates diversity.

Whanaungatanga

Build resilience, belonging and a shared purpose within the diverse community of our kura.

Hold partnership, participation and protection as guiding principles in ensuring all voices are heard and respected.

Actively promote te ao Māori and te reo in the fabric of our kura to support Māori students to succeed as Māori, and to ensure all students benefit from exposure to matauranga Māori.

Kaitiakitanga

Help students to set their sights on their horizon and move towards it.

Support students to maximise their learning potential as the NCEA updates are bedded in and the new curriculum documents are finalised.

From students holding a strong sense of self and being valued participants in a thriving community, to then seek the highest level of achievement, whatever that may look like.
